

Engineering Management Program - Course Syllabus
EM 669 – Lean Leadership Standards & Integration

Professor: Bryan Booker
bbooker1@emich.edu
Office: 111 Sill Hall
Phone: (734) 487-0146
Office Hours: Thursdays from 11am to 5pm.

EM669 Lean Leadership Standards and Integration: This class offers a structured review of the knowledge, principles, practices and application of the Lean Body of Knowledge (BOK). The class will prepare the lean management professional for the Bronze, Silver, or Gold Lean Certification examination which is based on the Shingo/SME/AME Lean Certification Body of Knowledge.

EM669 W2014 - Course Objectives

Upon completion of this class, students will be able to:

- Study the principles and practices within the Lean Body of Knowledge (BOK) and apply them to a student defined lean project.
- Develop a "Personal Lean Management Philosophy Statement."
- Prepare for the SME Lean Bronze Certification exam

EM669 W2012: Course Activities

- A review of the SME Lean Body of Knowledge (BOK).
- Application of BOK to a manufacturing, health-care or service project.
 - The project will be selected and defined by the student in Unit 1. The project must be a real example known by the student where the lean principles and practices summarized within the lean BOK may be applied. The actual application of the principles and practices will not be required; however, the justification and application of the lean principles and practices will be evaluated and recommended in enough detail to implement.

- Personal Lean Management Philosophy Statement
 - The statement is personal because it will summarize the student's understanding and expected application of key lean principles and practices to their own unique environment and career plan.
 - Sections of the statement will be developed in the early course units.
 - The final statement will be completed and edited within Unit 7.
- Exams
 - Seven Unit exams covering:
 - SME Lean BOK
 - Application as described in the "*The Goldmine - a novel of lean turnaround*" novel.
 - Final exam covering the Lean BOK

EM669 W2014 Text Books:

- Balle, F. & Balle, M. (2005), *The Gold Mine: a novel of lean turnaround*, Lean Enterprise Institute, ISBN: 0-9743225-6-3
- Dennis, P. (2007). *Lean Production Simplified* (2nd Ed.) Productivity Press, ISBN 978-1-56327-356-8 (Textbook was a requirement for EM556 in 2013)

Grade Weighting:

- | | |
|--|-----|
| • Lean Body of Knowledge Application to Personal Project | 30% |
| • Personal Lean Management Philosophy Statement | 26% |
| • Unit Exams | 22% |
| • Final Exam | 22% |

Evaluation and Grading:

Course grades will be determined by the percentage of total points attained for various work assignments completed throughout the semester, based upon the following scale:

100 to 93% = A	92.99 to 90% = A-
89.99 to 87% = B+	86.99 to 83% = B
82.99 to 80% = B-	
79.99 to 77% = C+	76.99 to 73% = C
72.99 to 70% = C-	
(no D grades, based on Grad School requirements) 69.99 and below = F
